OBJECTIVE

Aspiring developer passionate about coding, problem-solving, and building impactful software solutions while continuously learning new technologies.

EDUCATION

Bachelor of Information Technology, Sandip institute of information and technology 2023 - Present)

SKILLS

Technical Skills Certification in C, C++,HTML,CSS,Javascript,Bootstrap,Frontend.

Soft Skills Communication Skills, Teamwork and Collaboration, Problem Solving, Attention to Details.

EXPERIENCE

Data Analyst Intern

Sachitech Technology

Jun 2025 - Present
Nashik, Maharashtra

- Analyzing datasets using Python libraries like **Pandas**, **NumPy**, and **Matplotlib**.
- Cleaning and transforming raw data for insights and visualization.
- Creating reports and dashboards to present key findings to the team.
- Assisted in building automation scripts to streamline data tasks.
- Gained practical experience with **data wrangling**, **exploratory data analysis (EDA)**, and working in a real-world team environment.

Deloitte Australia – Data Analytics Virtual Internship (Forage)

Jul 2025 | Remote

- Completed simulation focused on building Tableau dashboards and analyzing telemetry data.
- Investigated unfair pay patterns using Excel and presented insights.

PROJECTS

ATM Stimulation System

[GitHub Repository](#)

- : Built a console-based ATM project simulating core banking functions like **balance inquiry, withdrawal, deposit, and PIN validation**.
- : Applied **object-oriented programming** concepts such as classes, objects, encapsulation, and constructors.
- : Focused on user-friendly interaction using conditional logic, loops, and switch-case statements.
- : Implemented **basic security features** like limited login attempts and PIN authentication.

Spotify Clone Frontend

[GitHub Repository](#)

- Designed a simple Spotify-like music player interface using **HTML** for structure and **CSS** for styling.
- Included key UI components like **navigation bar, playlist section, album covers, and playback controls**.
- Focused on **responsive design** for better display on different screen sizes.
- Improved understanding of **flexbox/grid layout**, color schemes, and real-world web design aesthetics.

Jarvis – AI Virtual Assistant

[GitHub Repository](#)

- Built a personal voice-controlled assistant in Python that automates tasks like opening apps, searching the web, sending emails, and playing music.
- Integrated speech recognition, text-to-speech, and APIs for real-time data (news, weather, etc.).
- Designed modular architecture so new commands and features can be added easily.

EXTRA-CURRICULAR ACTIVITIES

- **Sports/Cultural** – Represented college in [football, cricket, listening to music, drama, etc.]
- **Tech Club Member** – Active participant in college tech club; attended workshops on Python, web dev, and participated in coding challenges.

LEADERSHIP INITIATIVE

- A proactive and detail-oriented fresher with hands-on experience in Python and C++, strong leadership qualities, and a drive to contribute to team success in a collaborative environment.
